Low Volume Consumer or Designated Consumer Declaration Form for Multi-Unit Residential Premises

(REGULATED PRICE PLAN RP-2004-0205)

Effective April 1, 2005, the Ontario Energy Board (OEB) has created a Regulated Price Plan for consumers that sets out prices per kWh that local electricity utilities charge for electricity. Starting May 1, 2006 and every six months after that, the OEB will adjust the pricing as required.

Under the Regulated Price Plan, the OEB sets two prices for electricity consumption, a lower and higher price charged depending on the amount of electricity used. The threshold at which the higher price kicks in changes twice a year for residential customers – 1,000 kWh per month in winter and 600 kWh per month in summer. The old threshold of 750 kWh per month remains unchanged for all seasons for non-residential customers.

Pursuant to the Regulation filed under s. 79.4 (1) (a) of the *Ontario Energy Board Act, 1998*, where the account of a low-volume consumer or designated consumer relates to:

- a property as defined in the *Condominium Act, 1998*,
- a residential complex as defined in the *Tenant Protection Act, 1997*, or
- a property that is owned or leased by a co-operative as defined in the *Co-operative Corporation Act*,

the Regulated Price Plan threshold for that consumer is determined based on the number of units within the property or complex. In order to determine the appropriate threshold, consumers must provide a signed declaration attesting to the number of units to which an account relates.

If you qualify for the Regulated Price Plan threshold (e.g. because there is more than one unit associated with your account), you must complete this form and send it to our office by fax/mail immediately upon account set-up. Your account will be adjusted upon receipt of this signed and completed Declaration Form. Please note, forms received after a billing has already taken place will be eligible for a higher threshold only on subsequent bills, and not retroactively. Any delay in processing as a result of missing or inaccurate information on the form will NOT result in adjustments to previous billings.

If you have multiple accounts eligible for a higher threshold because there is more than one unit associated with your account, list each account separately. **Do not include units which are metered or billed separately from the account referenced. Please note that house accounts and common areas (i.e. hallways/laundry/pool/exterior lighting etc.) do NOT count as qualifying units.**

You must advise us in writing if your account ceases to qualify for the Regulated Price Plan threshold or if there is a change in the number of units within the property or complex.

Oakville Hydro Account(s) Number(s)	Account Name	Basis for Qualification <i>(eg. Apartment building - Tenant Protection Act)</i>	Number of Units within Property/ Complex <i>(not including common areas)</i>
