

# Thanks Oakville!

You helped us roundup 802 of your old inefficient fridges and freezers! The energy savings is equal to 756,000kwh/year which would supply electricity to approximately 66 homes for a year!

Refrigerators and freezers rounded up are decommissioned in an environmentally friendly way, learn how @ [www.everykilowattcounts.com](http://www.everykilowattcounts.com)

Still have a 10 year old or older fridge or freezer available for rounding up? There's still time, you too can have it removed for free and kick start your 2009 energy savings!

Simply call 1.877.797.9473 and schedule an appointment to have your existing fridge or freezer picked up.\*

\*Fridge or freezer must be 10 years old or older and in working order.
